

AV/VC ONE

One solution
to meet all
your needs

Dual screen set up
with VC kit and
front storage box

AV/VC ONE IS A FLEXIBLE PACKAGE WHICH CAN BE CUSTOMISED WITH ACCESSORIES TO SUIT USER REQUIREMENTS.

AV/VC One is the new AV and VC solution from CBS. It is a flexible solution which can be customised with accessories to suit user requirements.

Simplicity and ease of use is at the core of its design, it arrives part assembled for easy and tool-less installation, utilising hook systems to attach accessories.

AV/VC One is designed as standard with a column for cable management and stores AV equipment securely with a lockable back panel. The ventilation panel in the column ensures air circulation for enclosed equipment. The low profile base includes a cut out at the front to allow easy access for touch screen use. Lockable casters ensure the unit can be positioned easily, but can also be locked into place when in regular use.

AV/VC One can be customised by simply adding the following accessories:

- Dual screen brackets | Dual kit
- Universal codec and camera mount | VC kit
- Front storage box | Storage kit
- Rack mounted media storage facility | Media rack kit
- Shelf | Shelf kit
- Fan mount | Fan kit

Single screen set up with VC kit and shelf
